"MILK INDUSTRY ACT"

NOTICE is hereby given that, on the 15th day of August, 1956, the Milk Board, pursuant to the provisions of the "Milk Industry Act," made and passed General Order No. 1, as follows:—

THE MILK BOARD

GENERAL ORDER NO. 1

For the purpose of controlling and regulating under the "Milk Industry Act" (hereinafter referred to as the "Act") the marketing in British Columbia of milk produced in the Province, the Milk Board makes the following general order in relation to such marketing:—

Application

1. This Order shall apply only to milk qualifying for the fluid market produced or marketed or offered for market in an area of production referred to in the Act, and milk which does not qualify for the fluid market shall not be marketed or offered for market in any area of production for human consumption in fluid form.

2. Every person coming within the definitions of "producer" or "vendor" under the Act shall be classified as such for the purposes of this Order.

Licences

3. The Board may issue licences to every vendor and to every producer as follows:—

(a) Vendors' licences referred to as Class I Licences:

(b) Producers' licences referred to as Class II Licences.

4. Save as otherwise provided in the Act or this Order, no person shall act as a producer or act as a vendor unless he is in possession of a current licence from the Board of the appropriate class which is in good standing, and no person shall be relieved of compliance with this requirement in respect of either class on the ground that he is the holder of a licence of another class.

5. Every application for a licence shall be made in writing to the Board in such form and giving such particulars as may from time to time be prescribed by the Board, and every such application shall be accompanied by the fee provided in section 10 hereof.

6. Every licence heretofore issued by the Milk Board and purporting to be issued under the "Public Utilities Act" shall be deemed to be a licence under this Act and shall remain in force until midnight of the 31st day of March, 1957, unless sooner suspended or revoked under this Order, subject to the provisions of section 9 (b) hereof.

7. Every Class I Licence issued under this Order shall expire on the 31st day of March next following the date of issue thereof, unless suspended or revoked under this Order.

8. Licences issued hereunder shall not be transferable.

9. (a) The Board shall not issue any licence hereunder to an applicant unless:—

(i) In the case of a Class II Licence, he is the holder of the appropriate certificate of approval under section 4 of the Act; and

(ii) In the case of licences in both classes, he has complied with the requirements of every Government authority, Federal, Provincial, and municipal, applicable to the operations to which his application pertains, including licences required under Parts I and II of the Regulations under the Act.

(b) The Board may from time to time revoke or suspend for such time as to it seems proper, not exceeding thirty days, any licence hereunder the holder of which does not comply with the provisions of subsection (a) of this section.

10. There shall be payable to the Board a fee of \$1 in respect of each licence under this Order.

11. The Board shall renew every Class II Licence hereunder without previous application therefor, provided the holder thereof is still a producer and has not failed to comply with this Order.

12. On the 31st day of March in each year every vendor shall furnish the Board with the names and addresses of all holders of Class II Licences supplying qualifying milk to him as of that date and shall, as the agent of the Board, collect from each such Class II Licensee the said licence fee of \$1 payable by each such Class II Licensee and shall on the said date remit the same to the Board.

13. The Board may from time to time revoke or suspend for such time as to it seems proper, not exceeding thirty days, any licence hereunder for failure to comply with the provisions of the Act or of any regulations thereunder, or of any municipal by-law made in accordance with the provisions of the Act, or of any Order of the Board, or for failure to comply with the provisions of the "Contagious Diseases (Animals) Act" or of the regulations thereunder.

14. When any licence has been suspended for non-compliance with the provisions of section 9 (a) hereof or for breach of any of the provisions referred to in section 13 hereof, and such breach or non-compliance has not been rectified within the period of such suspension (the burden of proof of which shall be upon the licensee), such suspension shall continue, and if the breach or non-compliance shall continue after a period of 30 days' suspension, then the Board shall forthwith revoke the said licence.

Classification of Qualifying Milk

15. Qualifying milk shall be classified at the premises of the vendor where it is received from the producer for the purpose of marketing on the basis of utilization as follows:—

- (a) Class I milk shall be all qualifying milk to be utilized by a vendor for sale in fresh fluid form to:—
 - (i) Wholesale or retail customers in any part of the Province;
 - (ii) Other vendors in any part of the Province;
- (b) Class II milk shall be all qualifying milk surplus to his fluid requirements to be utilized by the vendor for the manufacture of canned evaporated milk or for the manufacture of concentrated fresh fluid milk;
- (c) Class III milk shall be all qualifying milk to be utilized by a vendor for any purposes other than those set forth in subsections (a) and (b) of this section.

Minimum Values at Which Vendors Shall Account to Producers for Qualifying Milk

- (a) (i) For Class I milk of 4.0 per cent butter-fat content received in the Vancouver area of production, the minimum value each month shall be the value computed under the following formula:—

(ii) For Class I milk of 4.0 per cent butter-fat content in the Vancouver Island area of production, the minimum accounting value each month shall be the value computed by adding to the accounting value for the month, computed pursuant to subsection (a) (i) of this section, the sum of 87 cents in accordance with the provisions of section 42 of the Act:

- (b) For Class II milk of 4.0 per cent butter-fat content in the Vancouver and Vancouver Island areas of production, the minimum accounting value each month shall be the value determined by calculating the producer hundredweight price for 4.0 per cent milk for manufacture into evaporated milk (can goods) for domestic consumption, as established and approved under the provisions of the Ontario "Milk Industry Act, 1954," and adding thereto the sum of 61 cents:
- (c) For Class III milk of 4.0 per cent butter-fat content in the Vancouver and Vancouver Island areas of production, the minimum accounting value each month shall be the value determined by totalling the producer hundredweight price for 3.5 per cent milk for manufacture of butter and non-fat spray powder, as established and approved under the provisions of the Ontario "Milk Industry Act, 1954," and one-half the pound value of the 1st Grade creamery butter at Vancouver, and adding to such total the sum of 10 cents.

17. To the minimum accounting values for qualifying milk set forth in section 16 there shall be added or subtracted a differential for each one-tenth of 1 per cent of butter-fat therein above or below 4.0 per cent calculated as follows:—

- (a) For Class I milk, by multiplying the simple average of the daily car-lot price of 1st Grade creamery butter during the month per pound Vancouver by .12;
- (b) For Class II milk, in direct proportion to the butter-fat content;
- (c) For Class III milk, by multiplying the simple average of the daily car-lot price of 1st Grade creamery butter during the month per pound Vancouver by .1.

Computation of Total Value of Qualifying Milk

18. Except as otherwise provided in this Order, the total value of qualifying milk received during any month at each plant by each vendor shall be the total amount computed monthly by the Board as follows:—

- (a) Multiply the pounds of qualifying milk in each class for such month by the class value as determined under sections 16 and 17, and add together the resulting amounts in each such class:
- (b) Add or subtract, as the case may be, the amount necessary to correct errors as disclosed by the verification of all vendors' reports for previous months:
- (c) Subtract an amount equivalent to 50 cents per hundredweight for qualifying fluid milk contained in evaporated or concentrated fresh milk which is placed in storage:
- (d) For any evaporated or concentrated fresh milk which is sold out of storage add an amount equal to 50 cents per hundredweight for qualifying fluid milk contained therein, adjusted for the difference between the value of the evaporated or concentrated fresh milk which went into storage and the value realized on the sale of the product:
- (e) The result of the said calculations is the accounting value of qualifying milk for the month.

*Computation of Producers' Price for
Qualifying Milk when Quotas
Are NOT in Force*

19. The producer price per hundredweight for qualifying milk shall be computed as follows:—

- (a) Combine into one total the values computed pursuant to section 18 for all vendors:
- (b) Subtract, if the average butter-fat content of milk represented by the values included in subsection (a) of this section is greater than 4.0 per cent, or add, if such average butter-fat content is less than 4.0 per cent, an amount computed by multiplying by the butter-fat differential computed pursuant to section 20 of this Order the amount by which the average butter-fat content of such milk varies from 4.0 per cent and multiply the resulting figure by the total hundredweight of such milk:
- (c) Divide the amount obtained as a result of the calculations set out in subsection (b) of this section by the total hundredweight of qualifying milk received by all vendors, casting off from the result any fractional part of 1 cent.

The net result of the said calculations shall be the price per hundredweight of all qualifying milk of 4.0 per cent butter-fat content which the Board fixes monthly as the amount which every vendor shall pay to producers.

*Producer Butter-fat Differential for
Qualifying Milk when Quotas
Are NOT in Force*

20. In making payment to producers for qualifying milk there shall be added to or subtracted from the price therefor for each one-tenth of 1 per cent by which the average butter-fat content of the qualifying milk received from any producer is above or below 4.0 per cent a butter-fat differential computed by multiplying the butter-fat differential for each class by the percentage of butter-fat contained in each such class of qualifying milk, adding together the resulting amounts and rounding to the nearest one-tenth of 1 cent.

Quotas

21. The provisions as to quotas contained in this section shall have effect for the purposes of sections 22 and 23 when applicable:—

- (a) Every producer who holds a daily quota heretofore allotted by the Milk Board and purporting to be allotted under the provisions of the "Public Utilities Act" shall have his daily quota reallocated as a valid daily quota under this Order as follows:—
 - (i) Every producer who supplied milk during the basic term of November and December, 1955, and January, 1956, shall have his daily quota reallocated by dividing

his total production of milk during the said basic term by the number of days he supplied said milk:

(ii) Every producer who has been allotted a quota or whose quota has been adjusted since the said basic term because he purchased the herd of a quota-holder shall have his daily quota reallocated under clause (i) of this subsection increased by a quantity of milk equal to that of the daily quota which the producer owning the herd so purchased would have been reallocated under clause (i) of this subsection:

(iii) All daily reallocated quotas under this section shall terminate at midnight on the 28th day of February, 1957:

- (b) Subject to the provisions of subsection (a) hereof, the quantity of qualifying milk which a producer in an area of production shall be entitled to supply shall be determined by a daily quota allotted to that producer by the Board as follows:—

(i) The daily quota of each producer whose qualifying milk was received by a vendor on not less than ninety-two days during the months of September through December, inclusive, shall be an amount computed by dividing such producer's total pounds of milk delivered in such four-month period by the number of days from the date of his first shipment to the end of such four-month period. The daily quota so computed, which shall be recomputed each year, shall become effective on the first day of March next following and shall remain in effect to the end of the month of February of the next succeeding year:

(ii) For the purposes of clause (i) of this subsection, a producer whose daily supply of milk to a vendor is in the ordinary course delivered at regular intervals exceeding one day shall be deemed to have qualified for a daily quota if such deliveries are made regularly during the said four-month period:

- (c) Where during any calendar month:—

(i) Any milk delivered by a licensed producer during such month has been declared by a licensed milk-grader to be unsuitable for the fluid-milk trade; or

(ii) A producer's licence has been suspended by the Board,—

the quota of such producer shall be decreased by the proportion which the number of days within the month during which such milk was unsuitable for use in the fluid-milk trade or during which such licence was under suspension bears to the number of days comprising such month:

- (d) A daily quota may be transferred upon written notice to the Board not less than fifteen days before the date of such transfer, but under the following circumstances only: If a producer sells, leases, or otherwise transfers his herd to another producer, the latter may receive the transferor's daily quota until the last day of the month of February next following the date of such sale, lease, or transfer, subject to the following conditions:—

(i) Such daily quota shall apply to deliveries of milk by the transferee producer from the same farm only:

(ii) If such sale, lease, or transfer takes place subsequent to September 1st of any year, all milk delivered to a vendor between September 1st and December 31st, inclusive, from the same farm (whether by the transferor or the transferee producer) shall be utilized, pursuant to clause (i) of subsection (b) of this section, in computing the daily quota of the transferee producer to become effective on March 1st next following; and

(iii) It is established to the satisfaction of the Board that the sale, lease, or transfer of the herd was bona fide and not merely for the purpose of evading any provision of this Order:

- (e) A producer who ceases deliveries of qualifying milk to a vendor for more than forty-five days shall lose his daily quota until he can establish a new daily quota under subsection (b) of this section, which new daily quota will begin on March 1st next following:
- (f) As soon as daily quotas computed by the Board have been allotted, notice of the amount of each producer's daily quota shall be given by the Board to each producer and to the vendor receiving such producer's milk:
- (g) If a producer operates more than one farm, he shall establish a separate daily quota with respect to qualifying milk delivered from each such farm:
- (h) Only "qualifying producers" as defined by section 2 of the Act may establish or earn daily quotas pursuant to the provisions of subsection (b) of this section, and one daily quota only shall be allotted with respect to milk produced by one or more persons where the land and premises on which such milk is produced are jointly owned or jointly operated.

Computation of Producers' Price for Quota Milk When Quotas Are in Force

22. When during any month the total utilization of Class I qualifying milk in any area of production does not exceed 75 per cent of the total of all vendors' receipts in quantity of qualifying milk in such area of production, the provisions of sections 19 and 20 shall not apply, but in lieu thereof the following shall have effect:—

- (a) For each month the Board shall compute the producer's price per hundredweight for quota milk as follows:—

- (i) Combine into one total the values computed pursuant to section 18 for all vendors:

- (ii) Subtract, if the average butter-fat content of the milk represented by the values included under clause (i) of this subsection is greater than 4.0 per cent, or add, if such average butter-fat content is less than 4.0 per cent, an amount computed by multiplying by the butter-fat differential computed pursuant to section 23 (a) of this Order the amount by which the average butter-fat content of such milk varies from 4.0 per cent and multiply the resulting figure by the total hundredweight of such milk:

- (iii) Determine the volume of Class II milk in excess of quotas by pro-rating the total quantity of milk in excess of quotas on the basis the utilization of Class II milk bears to the total Class II and Class III milk and multiply the hundredweights of such Class II milk by the price for such milk of 4.0 per cent butter-fat content:

- (iv) Determine the volume of Class III milk by subtracting from the total volume of Class II milk and Class III milk in excess of quotas the volume of Class II milk determined in clause (iii) of this subsection and multiply the hundredweights of such Class III milk by the price for such milk of 4.0 per cent butter-fat content:

- (v) Compute the total value of quota milk by subtracting the amounts computed pursuant to clauses (iii) and (iv) of this subsection from the net amount computed pursuant to clause (ii) of this subsection:

- (vi) Divide the net amount obtained pursuant to clause (v) of this subsection by the total hundredweight of quota milk, casting off any fractional part of 1 cent.

The net result of the said calculations shall be the price per hundredweight of quota milk of 4.0 per cent butter-fat content which the Board fixes monthly as the amount which every distributor shall pay to producers.

- (b) *Computation of Producers' price for Qualifying Milk Supplied in Excess of Quotas when Quotas Are in Force.*—For each month the Board shall compute the producer's price for qualifying milk supplied in excess of quotas by dividing the total of the amounts computed pursuant to clauses (iii) and (iv) of subsection (a) of this section by the total hundredweight of qualifying milk supplied in excess of quotas, casting off any fractional part of 1 cent. The net result shall be the price per hundredweight of such qualifying milk of 4.0 per cent butter-fat content supplied in excess of quotas which the Board fixes monthly as the amount which every vendor shall pay to producers.

Producer Butter-fat Differentials for Quota Milk and for Qualifying Milk Supplied in Excess of Quotas when Quotas Are in Force.

23. In making payment to producers for all quota milk and for qualifying milk supplied in excess of quotas, there shall be added to or subtracted from the prices thereof for each one-tenth of 1 per cent that the average butter-fat content of the qualifying milk received from the producer is above or below 4.0 per cent, butter-fat differentials computed as follows:—

- (a) The butter-fat differentials for quota milk shall be computed by multiplying the butter-fat differential for Class I milk, calculated as provided in section 17 (a) hereof, by the percentage of the butter-fat contained in quota milk that is allocated to Class I; by multiplying the butter-fat differential for Class II milk, calculated as provided in section 17 (b) hereof, by the percentage of butter-fat contained in quota milk that is allocated to Class II; and by multiplying the butter-fat differential for Class III, calculated as provided in section 17 (c) hereof, by the percentage of butter-fat contained in quota milk that is allocated to Class III; adding together the resulting amounts and rounding to the nearest tenth of a cent:
- (b) The butter-fat differential for qualifying milk supplied in excess of quota shall be computed by multiplying the butter-fat differential for Class II milk, calculated as provided in section 17 (b) hereof, by the percentage of butter-fat contained in such excess milk that is allotted to Class II and by multiplying the remaining percentage of butter-fat within such excess milk by the butter-fat differential for Class III milk, calculated as provided in section 17 (c) hereof, adding together the resulting amounts and rounding to the nearest tenth of a cent.

24. The Board orders that there shall be a market-wide pool in respect of the sale of qualifying milk received by vendors in each area of production in British Columbia, and for such purposes:—

- (a) Each producer shall market his qualifying milk in each class in the same proportion that the total sales by all vendors of qualifying milk in each class bears to the total volume of qualifying milk received by them from all producers in each area of production. In order to avoid the unnecessary cost to vendors, producers, or consumers resulting from the movement of qualifying milk pursuant to the foregoing provisions of this section, in lieu of requiring that vendors shall transfer to other vendors any quantity of qualifying milk in any class received by them from their producers for marketing so that each vendor shall market the same proportion of each class of qualifying milk and therefore be required to pay to each producer the same price for his qualifying milk, the producer price computed in accordance with sections 19, 20, 22, 23, and 25 hereof is fixed as a blended price for all classes of milk:

- (b) As in complying with the order for payment of the said price some vendors may be required to pay to producers more and other vendors may be required to pay to producers less than the total value of the volume of qualifying milk received by them as computed in section 18 hereof:—

(i) On or before the fifteenth day after the end of the month during which the milk was received, every vendor shall pay to the Board the amount by which the value of milk received by him as calculated under section 18 hereof is greater than the amount which he must pay to producers in complying with sections 19, 20, 22, 23, and 25 hereof:

(ii) On or before the seventeenth day after the end of the month during which the milk was received, the Board shall pay to every vendor the amount by which the value of milk received by him as calculated under section 18 hereof is less than the amount which he must pay to producers in complying with sections 19, 20, 22, 23, and 25 hereof.

Time and Method of Payment to Producers

25. (a) On or before the nineteenth day after the end of each month each vendor shall make payment to each producer for qualifying milk received at the plant of such vendor from such producer during the previous month:—

- (i) Where the provisions of section 22 have not become applicable, at not less than the price for all qualifying milk adjusted for butter-fat differential as provided in section 20 hereof:

- (ii) Where the provisions of section 22 have become applicable:—

(a) In respect of quota qualifying milk at not less than the price for such quota qualifying milk for the quantity of quota qualifying milk received adjusted for butter-fat differential as provided in section 23 (a) hereof:

(b) In respect of qualifying milk supplied in excess of quota at not less than the price for qualifying milk supplied in excess of quota for the quantity of such qualifying milk in excess of quota:

Provided that where evaporated or concentrated fresh milk has been during the said month sold out of storage, payment for the qualifying milk of such producer contained in such evaporated or concentrated fresh milk shall be not less than the amount computed in accordance with the provisions of section 18 (d) divided by the quantity of qualifying milk which went into such evaporated or concentrated fresh milk sold out of storage as aforesaid:

- (b) Milk supplied to a vendor by an agent for producers or by a co-operative association distributing milk produced by members of such association shall be deemed to have been supplied by the members of such association producing such milk, but nothing herein contained shall require any vendor to make payment for such milk to any person other than such agent for producers or co-operative association supplying such milk:
- (c) Payment for qualifying milk pursuant to subsection (a) of this section shall be in cash or by bank cheque which is immediately negotiable.

26. Every vendor, when making payments pursuant to section 25 hereof, shall furnish to each producer a statement showing in detail:—

- (a) The total weight of all milk received from such producer during the month for which payment is made:
- (b) The weights, prices, and amounts paid for milk under section 25 hereof in detail:
- (c) A detailed accounting in respect of milk delivered which has been found not to be "qualifying milk":

- (d) The butter-fat test of all milk supplied:

- (e) The total payment; and

- (f) All authorized deductions, fully itemized:

Provided that where payments are made at more frequent times than as required by Order, it shall be a sufficient compliance with this section if all the details as aforesaid are provided once a month in a statement furnished with a final payment on the nineteenth day of each month.

27. No vendor shall deduct from any payment made pursuant to section 25 hereof any amount other than amounts actually paid by such vendor for one or more of the following purposes:—

- (a) Charges paid on behalf of the producer for the freight of his milk to the plant of such vendor:
- (b) Can rental paid on behalf of such producer:
- (c) Licence fees payable to the Board for such producer's Class II Licence:
- (d) Amounts due to the vendor for purchases made by him on behalf of such producer:
- (e) Amounts paid by the vendor to other persons on the written authority of the producer:
- (f) Any other items duly authorized in writing by the Board.

28. Every vendor shall, on or before the eighth day of each month, furnish the Board with a true and detailed report of his total receipts and total utilization by classes of qualifying milk during the month immediately preceding, such report to be in such form as the Board may from time to time prescribe.

Adjustments of Accounts

29. Whenever verification by the Board of reports or payments of any vendor discloses errors resulting in money due:—

- (a) The Board from such vendor:

- (b) Such vendor from the Board; or

- (c) Any producer from such vendor,—

the Board shall promptly notify such vendor of any amount so due, and payment thereof shall be made on or before the next date for making payments set forth in the provisions under which such error occurred following the fifth day after such notice.

*Announcement of Minimum Prices**

30. The Board shall announce, by posting in a conspicuous place in its office and by such other means as it deems appropriate, the prices determined for each month as follows:—

- (a) On or before the fifth day of each month:—

(i) The minimum price for Class I milk in each area of production pursuant to section 16 (a), and the Class I butter-fat differential pursuant to section 17 (a), all for the current month; and

(ii) The minimum price for Class II milk in each area of production pursuant to section 16 (b), and the Class II butter-fat differential pursuant to section 17 (b), both for the preceding month; and

(iii) The minimum price for Class III milk in each area of production pursuant to section 16 (c), and the Class III butter-fat differential pursuant to section 17 (c), both for the preceding month:

- (b) On or before the thirteenth day of each month, the prices in each area of production pursuant to sections 19 and 22 as applicable, and the butter-fat differentials computed pursuant to sections 20 and 23 as applicable to qualifying milk received from producers during the preceding month.

Notice to Vendors

31. The Board shall, on or before the thirteenth day after the end of each month, notify each vendor whose total value of milk is computed pursuant to section 18 hereof of:—

- (a) The amounts and values of his producer qualifying milk in each class and the totals of such amounts and values; and

- (b) The uniform price for all qualifying milk received; and

- (c) If applicable, the uniform prices for quota milk and for qualifying milk received in excess of quotas; and
- (d) The totals of the amounts computed in the manner provided by section 25; and
- (e) The amounts referred to in section 24 as paid to the Board or paid by the Board.

Records, Reports, and Returns

32. (a) Vendors shall keep such books, records, and accounts as will afford an intelligent understanding of the conduct of their business, in such form and containing such particulars as the Board may from time to time prescribe.

(b) All books, records, and accounts required to be kept under subsection (a) of this section shall at all times be available for inspection by the Board, or any officer or inspector of the Board, or such other person as may be authorized by the Board from time to time to make an inquiry or report.

(c) Every vendor shall retain and have available for inspection by the Board all original records, whether contained in books or accounts or otherwise howsoever, for a period of three years.

33. Vendors shall furnish to the Board not later than May 1st, August 1st, November 1st, and February 1st in each year detailed statements of profit and loss in such form and verified in such manner as the Board may prescribe, covering respectively the preceding months of January, February, and March; April, May, and June; July, August, and September; and October, November, and December.

34. Each year, not later than ninety days following the close of his fiscal year, every vendor shall furnish the Board with a copy of his annual balance-sheet and operating statement.

35. This Order shall come into operation on the 1st day of September, 1956.
